## PROMOTIONAL COVER WRAP

PERFORMANCE

### The proof is in the field.

True performance is measured time after time, field after field, season after season. If you're looking for a consistent winner, check out the NCGA Yield Contest results. In category after category, field after field, you'll see more winners who planted Pioneer® brand hybrids than any other brand. You can see similar, consistent success in thousands of on-farm trials, in conditions that vary dramatically across geographies. Pioneer sales professionals have the knowledge and technical tools to recommend high-performance hybrids that will deliver top results from each of your fields. Performance is just one key component of the complete performance you can expect from Pioneer brand hybrids.
