# Loads of flexibility, tons of value

## versatile • reliable • economical

### NEW 100-140 HP 6D Series Utility Tractors from John Deere

**Stack bales, clean pens, haul brush, move pallets** – if you've got loader work, you'll be loads ahead with a nimble, new John Deere 6D Series Utility Tractor.

The PowrReverser™ transmission with left-hand reverser allows for fast and easy shuttle shifts between forward and reverse at any speed. What's more, the new 6D Tractors now feature the durable John Deere wet clutch design for easier clutching and worry-free performance.

Get the ultimate in loader productivity with your choice of the self-leveling 563 Loader for general chores or the 673 Loader for heavy-duty work. Both feature the global carrier for easy hookups to a wide range of attachments.

**Simple to operate, simple to own**, a new 6D Tractor offers the versatility and reliability you expect from a John Deere, all at a surprisingly affordable price.

Visit us online to learn more, or stop by your John Deere dealership for a test drive.

## Open a satellite office for as low as \$1400.

Now you can make the leap to John Deere precision technology for a lot less than you'd expect. The new GreenStar™ Lightbar and StarFire™ 300 receiver deliver a well-designed parallel tracking system at an easy-on-your-budget price. The insightful duo immediately identifies off-track error, then directs you to a better path, saving you time, effort, and money; especially on costly inputs like fuel and fertilizer. Likewise, you can move them from machine to machine putting the pair to work in multiple applications from tillage to spraying and everywhere in between. And because our name is on them, you're backed by the industry's best customer support team. Visit your John Deere GreenStar Certified dealer today to learn more.
