

It has 389,000 cubic yards of concrete, 83,000 tons of structural steel and enough wire to wrap around Earth three times.

Now that's a strong foundation. Just like the solid foundation you get with WideMatch® herbicide. WideMatch is the bedrock for weed control in your wheat, durum, barley and oats. Nothing is more powerful against kochia, wild buckwheat, Canada thistle and more than 60 other broadleaves. And it's the perfect match for all grass herbicides in a one-pass control program. There's no stronger foundation than WideMatch.

WIDE SPECTRUM. PERFECT MATCH.
