WEATHER OUTLOOK

Sept. 11 to Oct. 10

By FRANK WATSON

TEMPERATURES are favored to average warmer than normal. Precipitation prospects are expected to diminish though the forecast period, totaling below normal over much of the Dakotas but with above-normal totals over southeastern South Dakota.

WEATHERGRAM

November temperature: Near normal with below-normal temperatures over western North Dakota
 November precipitation: Near normal with below-normal totals over western South Dakota

Passing showers and thunderstorms are expected to open the forecast period on Tuesday, Sept. 11, with precipitation prospects remaining favorable through the following Tuesday, Sept. 18.

Moderate to locally heavy precipitation is expected.

Cooler temperatures and sunny skies are favored for Wednesday, Sept. 19.

Fair skies with scattered showers are expected from Thursday to Tuesday, Sept. 20-25. Precipitation totals are expected to be light.

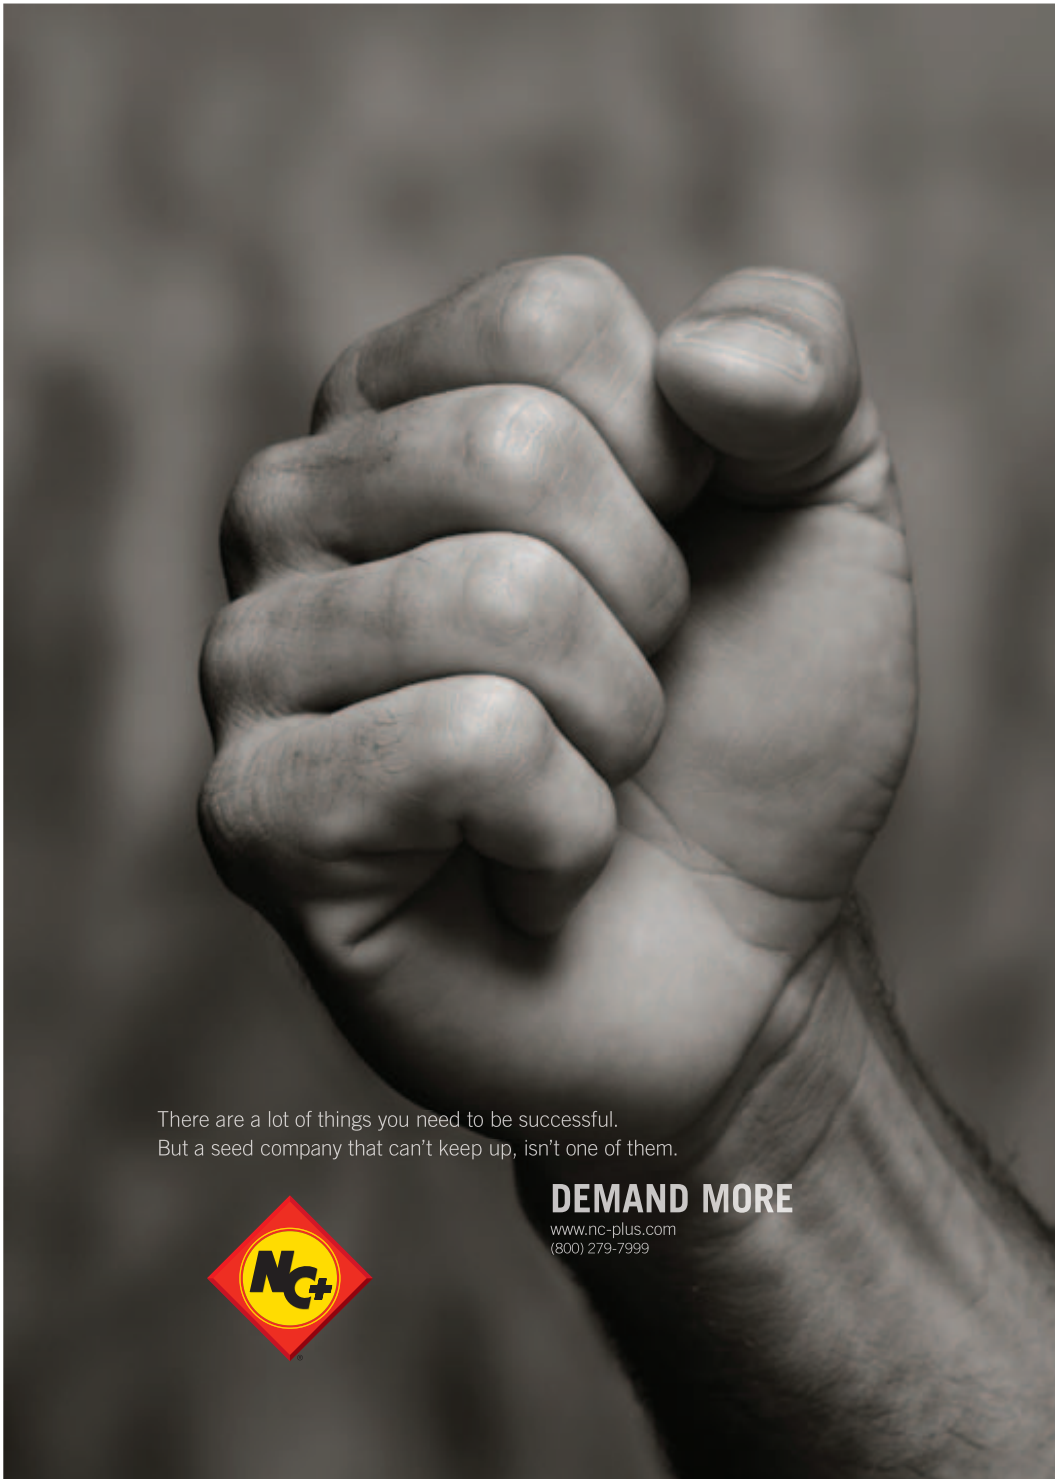

Scattered showers and cool temperatures are favored for Wednesday and Thursday, Sept. 26-27. Light precipitation totals are expected.

Mostly sunny skies are expected to

end the month from Friday to Saturday, Sept. 28-30.

Sunshine is expected the first couple of days of October, but look for clouds and scattered showers from Wednesday to Friday, Oct. 3-5. Light-to-moderate rainfall totals are expected along with cooler temperatures.
