

## How do you get plant performance that separates the extraordinary from the ordinary?

With all you put into your operation, it's time to get more out of it. For plant performance that can lead to extraordinary yield, discover the difference Quadris® fungicide can make. Besides offering protection against the widest spectrum of fungal diseases—including Frogeye leaf spot—only Quadris gives you true xylem-mobile systemic activity. We call it the Quadris X-Factor.™ And it means Quadris moves fully throughout the leaves and plant to give you the most complete disease protection. So take your soybeans beyond plant health with performance that drives higher yield.
