

everybody needs
a best friend.

Callisto® and corn. Ever since we introduced them, they've been inseparable. Must be the active ingredient inspired by the *Callistemon* plant. It keeps corn safe and sound, even while it takes down the nastiest broadleaves in the field. And it does both better than any other herbicide. In fact, there's nothing Callisto wouldn't do for corn. Isn't that what friends are for?

Callisto is a Resistance Fighter™ brand. resistancefighter.com
