

# WE LOVE TALKING SHOP. AS LONG AS WE'RE STANDING IN A FIELD.

NK® SEEDS ARE SOLD THROUGH OUR AG RETAIL PARTNERS, YOUR MOST VALUED RESOURCE in providing quality products, service and expertise. No one is in a better position to help you build productivity solutions best suited to your operation through a combination of NK seeds, Agrisure™ traits, Syngenta seed treatment and crop protection products plus fertility, from planting to harvest. In fact, we believe combining NK seeds with the resources and research of Syngenta through your local retailer is more than just a partnership—it's productivity and the future of farming.
