

Treated with Soil Insecticide

YieldGard Plus

See the difference the built-in bug zapper can make.

Dig and see. YieldGard® Plus Corn delivers bigger roots and healthier stalks for maximum moisture and nutrient uptake. That's because it works from the moment you plant, zapping pests with the power of maximum insect protection. See the difference of YieldGard Plus. The corn with the built-in bug zapper.

Maximum insect protection, for less than the cost of soil insecticides:

Western Corn Rootworm • Northern Corn Rootworm • Mexican Corn Rootworm • European Corn Borer • Southwestern Corn Borer • Black Cutworms • Sugarcane Borer • Fall Armyworms • Stalk Borers • Wireworms • White Grubs • Seed Corn Maggots • Early Flea Beetles • Earworms

Experience the ultimate in convenience and profitability: YieldGard Plus stacked with Roundup Ready® Corn 2.
