DeLaval voluntary milking system VMS

DeLaval has supported dairy farmer's modernization demands since the first milking innovation was invented. DeLaval voluntary milking system VMS is another step towards strengthening this continuing partnership. Designed to free you from rigid and strenuous daily milking routines, DeLaval voluntary milking system VMS is the key to entering a better lifestyle. VMS gives you excellent herd management opportunities for better herd health and greater profits.

For more information on the DeLaval VMS, please contact your local independent DeLaval dealer or visit www.delaval-us.com

The first and only FDA compliant robotic milker

Price is what you pay - Value is what you get. The DeLaval VMS is particularly worth considering at this time on dairies milking 50 to 500 cows. Please give us a call to schedule an appointment with a VMS specialist.
