

# New product parade

**N**EW York Farm Show exhibitors proudly roll out their new products, technologies and services. Among them are offerings of great potential value.

Here are some products touted as new introductions by their marketers for the Northeast. Due to limited space, companies were limited to only one item. Some include suggested retail or list value.

Circle products you're most interested in here and on the NYFS maps in this program. Then bring your copy

to the show.

At the end of each item, you'll find their location. The building codes are: CP (Center of Progress), HT (Horticultural Building), I (International Pavilion), and D (Dairy Building).

Can't attend? Call the contact person noted with the item or your local dealer for more information.

Also be sure to go to the New York Farm Show Web site at [www.newyorkfarmshow.com](http://www.newyorkfarmshow.com) for an even larger roundup of new products.

## BMR hybrid

King's AgriSeeds has an improved gene 6 brown

midrib sorghum-sudan hybrid. Summer Dream packs lots of leaves on a stalk only 5 to 6 feet tall, ideal for grazing, yet very good for machine harvest and exceptional for regrowth. Suggested retail is \$48 for 50 pounds. Contact: Rodney Porter, 866-687-6224. Booth: D-722F.

trash flow through 9-, 11- and 13-shank models. Suggested retail is \$25,995. Contact: Terry Shawver, 800-409-9749. Booth: CP-CC.

## Diamond grooving

Grandview Concrete Grooving cuts 1/2-inch-wide by 3/8-inch-deep grooves in concrete or rubber flooring in 4-inch diamond patterns for improved cow comfort and safety. Contact: Vern Foley, 888-447-6684. Booth: CP-185.

## Calf creep feeder

Skyview Fencing has a Priefert creep feeder with an adjustable front calf-pass panel. Suggested retail is \$595. Contact: Todd Dyer, 518-392-7364. Booth: D-741.

## Clear-span curtain

Arntjen's latest barn ventilation curtain allows a maximum clear-span opening of 13 feet. It opens from the top in winter and from the bottom during summer. It can be automated. Contact: Adam Ireland, 519-357-8898. Booth: D-514.

## Compact skid steer

John Deere is wheeling out the 315 skid steer that's compact in size and big on power. The radical lift design makes working in close quarters easier for the 59-inch-wide, 45-hp machine. Booth: D-OD.

## Conservation tillage

Brillion's new Soil Builder II features larger cutting shanks and coulters, 35-inch underframe trash clearance and a stronger frame to handle heavy residues. The 42-inch clearance between the three rows allows excellent

## New foliar fertilizer

Alpine Plant Foods offers the first of a new line of foliar products fortified with micronutrients and ingredients to enhance leaf uptake. Contact: Wayne Oostgerhoof, 519-662-2352. Booth: CP-124.

## Injection toolbar

Oxbo has a solution to soaring nitrogen fertilizer costs. Its high-clearance injection toolbar, made by Miller St. Nazianz, has 66-inch-tall, heavy-duty standards and spring-mounted, 20-inch narrow, fluted coulters to cut a path. It comes in 6-, 8-, 12- and 16-row configurations. Contact: Wade Heineman, 585-548-2665, ext. 273. Booth: D-ZZZ.

## Lagoon pump

Jamesway debuts its commercial series of lagoon pumps with an 8-inch, 25-foot-long power-boom loading pipe, eliminating the need for loading hoses. It swings to both sides via operator control. Contact: Ralph Fanning, 819-845-7824. Booth: D-JFE.

## Mower-conditioner

Kverneland will feature its new Taarup 4200 series trailing disk mower-conditioner with improved cutting overlap, superfloat suspension, more aggressive conditioning and windrow spreading. Suggested retail is \$25,000 to \$32,000. Contact: Fanny Lajeunesse, 315-431-3501. Booth: CP-F.

## Triple-trait corn

Monsanto's Dekalb brand rolls out its VT Triple hybrids with more consistent corn rootworm and European corn borer protection plus Roundup Ready weed control. Contact: Bob DeWaine, 315-264-6009. Booth: CP-137.

## New-gen chopper

Claas will show its new generation 900-series Jaguar forage chopper, with higher horsepower ranging from 507 to 830, repositioned axles for improved road-running balance, high-visibility cab, new V-knife drum design and improved kernel cracker. Contact: Tim Berglund, 402-861-1073. Booth: CP-EE.

## Premium inoculant

Deaton Nutrition offers Multi-Sile II, a premium forage inoculant with yeast and mold inhibitors, available in water-soluble and granular formulations. Suggested retail for a dry 50-pound bag is \$65. Contact: Barbara Matti, 715-829-2566. Booth: D-594.

## V-Force spreader

Meyer Manufacturing's model 7400 V-Force generates excellent spread patterns no matter what the material. Trailer- or truck-mount models employ 20-inch sectional flighted augers with independent shear protection, No. 120 drive chains. Contact: Tim Murray, 315-382-7175. Booth: CP-G.

## RFID ear tag

Global Animal Management offers a g-tag, an electronic animal identification ear tag that complies with National Animal ID System requirements. Suggested retail is \$2 a tag. Contact: Tucker Schumacher, 973-998-6886. Booth: D-817.

## PVC planks

Davon Sales introduces 3/8-inch thick, fluted, wall and ceiling decorative planks made of PVC materials in 16-inch widths and 8-, 10-, 12- and 20-foot lengths. No screws show, and they're easy to clean. Suggested retail is \$1.75 a square foot. Contact: David Palmer, 800-561-1706. Booth: HT-E5.

## Top-yielding beans

Syngenta NK Seeds features its S21-N6 soybeans, the top-yielder in NYS soybean variety yield trials at Aurora. Contact: John Richman, 856-381-7772. Booth: CP-173.

## TMR feed manager

Digi-Star introduces its TMR Tracker, a wireless feed management program that interfaces with its feed tracking and inventory system. Suggested retail is under \$3,000. Contact: Larry Raupp, 920-568-6211. Booth: D-705.

## Woodlot mgt. video

Southern Tier Specialties offers a land management video, "Demystifying Woods and Wildlife Management," filmed in Tioga County, N.Y. Contact: Jerry Gordon, 607-565-8494. Booth: I-4.
