

# A haul like this can really wear you out. Imagine what it can do to your engine.

**New API CJ-4 technology**

IT BELONGS IN YOUR TRUCK.®

Introducing the re-engineered Shell Rotella® T motor oil with Triple Protection™ technology – a hard working oil for your hard working truck. Designed to enhance engine function with advanced wear protection and improved deposit and emission control, Shell Rotella® T with Triple Protection™ technology has produced dramatic results in industry tests, showing an average of 50%\* less engine wear than before. Formulated specifically to meet the latest oil and engine requirements, it provides outstanding protection in both new and older models, so no matter what you drive, your engine gets the protection it deserves. The future of heavy-duty engine oil is here. For more information, visit [www.ROTELLA.com](http://www.ROTELLA.com).
