

The Better Bt™. It's no wonder Pioneer® brand hybrids with Herculex® insect protection — **The Better Bt™** — lead the industry: A high level of **rootworm** control, expressed consistently across all hybrid families. Your only choice for in-plant **western bean cutworm** and **black cutworm** control. And all that protection is wrapped around unique proven Pioneer genetics, backed by sales representatives with a wealth of agronomic knowledge to help you maximize productivity.
