

Wise Up is my economic advantage

"That Wise Up™ Plus is something else," say smart farmers who have used it over the top. "I really liked the foaming action, and it even killed my morning glory" said a large Texas cotton grower. Glowing testimonials follow the use of Wise Up Plus, by farmers around the country. Wise Up Plus is a premium quality glyphosate, guaranteed to have 15% surfactant. Each batch of Wise Up Plus, is carefully analyzed by independent laboratories, to insure it meets or exceeds its manufacturing specifications. In University tests, the performance of Wise Up Plus was found comparable to the most expensive glyphosates on the market. Yet Wise Up Plus, costs much less per acre, than traditional brand name glyphosate products.

These days, to help achieve maximum economic yields, a grower needs to carefully control production costs. Prices of farm outputs are set by ruthlessly efficient commodity markets. However, smart growers can still fight back to maximize economic yields. Smart growers can lower their production costs, by switching to effective generics like Wise Up Plus.

Wise Up Plus is fully registered for use "over the top" on Roundup Ready® crops. It has developed a record of excellent crop safety and outstanding performance, against a wide assortment of weeds. Indeed the glyphosate active ingredient in Wise Up Plus, has been successfully used by smart growers around the world in the U.S., Latin America, Europe, Australia, and South Africa.

All Wise Up Plus is shipped by MEY Corporation in new packages of top quality. The tote is a 265 gallon poly tank, wire caged with a bottom

outlet valve. The blue 30 gallon drum is competitively priced. Bulk shipments of approximately 4,000 gallons, and cases of 2X2 and one half gallon packaging are also available.

Wise Up Plus glyphosate is the smart choice, for growers who want to Wise Up and get maximum economic yields.

Maximum Economic Yield, is also the name of MEY Corporation, a company run by experienced professionals, dedicated to maintaining low prices on their quality products. MEY Corporation is partnering with growers to help achieve maximum economic returns. Contact **MEY** at 800-613-0427.

Wise Up is my economic advantage.

Why Wise Up? Simply because it provides outstanding performance. If you grow Roundup Ready® crops like soybeans, cotton, and corn — you need a dependable glyphosate. You need Wise Up, for some very good reasons:

- Wise Up™ Plus is a guaranteed 41% or higher glyphosate with a premium quality 15% surfactant that's not too hot, but just right for over-the-top application on all labeled Roundup Ready® crops. "It doesn't speckle my cotton," is a comment echoed by numerous cotton growers. "...even with the dry conditions we had, we saw an effect in just a day after spraying Wise Up," says Michael Dreyer, a small grains farmer near Gatesville, Texas.
- Wise Up™ Plus brand glyphosate herbicide offers proven maximum economic performance. It's a dependable, premium quality formulation, produced by the second largest glyphosate manufacturer in the world. Our glyphosate has an excellent, proven track record, having been used worldwide for years. And unlike some glyphosate products that carry a WARNING label, the Wise Up Plus label carries only a Caution precautionary statement.
- Container sizes include 2 x 2 1/2 gallon cases, 30 gallon drums, 265 gallon totes, and bulk.
- The "MEY" in our name stands for "Maximum Economic Yield." We are committed to helping you get the most from your production inputs. We offer a comprehensive label and a wide range of registered glyphosate products. MEY Corporation — partnering with you to achieve maximum economic returns.

Just what you need — an "economic advantage."
