

*My name is Tom Freed,  
and I breed better beans for Asgrow.*

In over 7,600  
yield comparisons  
in 2005, leading  
Asgrow products  
outyielded Pioneer<sup>®</sup>  
and NK<sup>®</sup> brands  
by 2 bu./A

## There's a reason Asgrow<sup>®</sup> can give you consistently higher yields: **genetic purity.**

My team takes Asgrow's better breeding one step further.

We focus 100% on genetic purity.

Because when soybeans are uniform on the inside, they are also  
uniform in health and performance.

No other seed company has a genetic purity team like us.

Which is why no other seed company matches our yield potential.

Asgrow. We breed better beans.
