

Even After 70 Years...

It's About Your Business

Even after 70 years of producing high-quality seed, F.W. Rickard Seeds, Inc. continues to set the pace in an ever-changing tobacco world.

The result is higher yielding varieties with the traits you need in a better quality seed using our pelleting process with Incotec® Technology. F.W. Rickard Seeds offers a wide selection of burley varieties including TN 90LC, msKY 14xL8LC, R 610LC and KT 204LC. We also offer a wide selection of dark varieties such as NL MadoleLC, KT D4LC and a new one from the University of Kentucky, KT D6LC, and our new proprietary variety, PD 7312LC. All of our burley and dark varieties are screened or LC seed.

F.W. Rickard Seeds, Inc. is committed to meeting your needs by delivering the latest technology for today's tobacco producer.

After all, it's about your business!
