

Every season is a multiple-choice test. Pioneer sales professionals apply local knowledge and vision to pinpoint answers, acre by acre. From the new Y Series soybeans to The Better Bt<sup>®</sup>, every recommendation is based on decades of experience and proprietary genetics. Tools including Accelerated Yield Technology (AYT<sup>™</sup>), marker-assisted selection and the Pioneer FIT<sup>®</sup> mapping system combine with contest-winning yield potential to provide you the most profitable answers — field by field, crop by crop.
