## Property Management

# Apply for energy grant soon

**W**ITH natural gas, diesel and propane prices continuing to rise, what can you do to keep your farm or business profitable? Take a serious look at improving energy efficiency or installing a renewable-energy system with help from a USDA farm-energy grant or loan guarantee.

You have until May 12 to apply for grants or loan guarantees from the Section 9006 Renewable Energy Systems and Energy Efficiency Improvements program. Section 9006 of the 2002 Farm

Bill provides grants for up to 25% of system costs and can slash energy costs or provide new revenue streams in a relatively short period of time.

Section 9006 grants and loan guarantees help farmers, ranchers and rural small businesses build large or small projects. Renewable-energy grants range from \$2,500 to \$500,000, and energy-efficiency-upgrade grants range from \$1,500 to \$250,000. Loan guarantees can cover 50% of your loan, up to \$10 million.

The Section 9006 farm-energy program has a strong track record: It was created in the 2002 Farm Bill and has spurred energy efficiency and renewable-energy projects in 42 states, and brought in hundreds of millions of dollars of investment to rural America.

About 430 diverse projects, ranging from wind turbines to manure digesters to solar-heating water systems to energy-efficient grain-drying systems, demonstrate the program's broad benefits.

## JOHN DEERE TILLAGE & SEEDING EQUIPMENT

Save thousands on new John Deere tillage tools

Ask about special low-rate financing

Big early order savings on all John Deere planters

Great deals on air seeders and box drills

# John Deere tools are built to last. These incredible deals won't.

Thinking about upgrading your tillage and seeding equipment? Special Early

Order deals make this the very

best time to trade up to John Deere-quality and reliability without working over your balance sheet. Choose big cash discounts or low-rate financing.\* Either way, you'll save plenty. Best of all, you'll get a John Deere tillage tool, planter, air seeder, or box drill spec'd with the right options and attachments for your operation. Plus, you'll maximize your investment and improve your asset management when you take delivery before next use season. Talk to your John Deere dealer today. The sooner you order, the bigger the savings.

\*Financing subject to John Deere Credit approval. Orders must be placed between 1 May 2006 and 31 August 2006. Please see your John Deere dealer for details and for complete list of qualifying products.
