

Protection, redesigned!

Introducing a new look for Shell ROTELLA® T heavy-duty motor oil.

Now you'll find the same advanced protection in a brand-new bottle. Shell Rotella® T with Triple Protection™ technology now features a new, ergonomic design, making it easier to handle and easier to pour. The new bottle and case are more environmentally friendly too, using less plastic in the closure and less corrugate for easy recycling. And now, with only three 1-gallon bottles per case, lifting and moving becomes lighter and easier. Look for the new bottles and cases in September. Contact your Shell representative for more information. Shell Rotella® T. It belongs in your truck™.
