- FACT:** LEXION leads the industry in fuel economy – averaging at or below 1 gallon per acre.†
- FACT:** The exclusive LEXION Mobil-Trac™ System (MTS) leads the industry in flotation – allowing harvest to begin when the crop is ready.
- FACT:** LEXION combines have the largest total threshing and separation area (throughput area) available, per class.
- FACT:** The exclusive Hybrid System enables class leading performance and productivity – yielding a greater return for your investment in both crop and combine harvester.
- FACT:** L.E.A.P. savings end December 31, 2009. Contact your LEXION dealer for details.

Financing available through CLAAS Financial Services.

† Dependant on crop and harvest conditions. \*Interest will begin 18 months after delivery of the purchased machine. In lieu of certain cash discounts and subject to credit approval from CLAAS Financial Services. Offer begins October 1, 2009 and ends December 31, 2009. Only applies to new LEXION combines. Example: Customer signs retail contract on a new LEXION in November 2009 and takes delivery of the machine in July 2010, interest on financed amount will not begin accruing until January 2012.
