

BRENT

A SMOOTH HARVEST FROM START TO FINISH

From start to finish, you'll enjoy a smoother harvest with a Brent 80 series grain cart. The patented, self-aligning, indexed and rubber-cushioned Soft-Start™ auger mechanism ensures a smooth and complete engagement of the upper and lower augers at start-up for reduced stress and longer driveline life.

Augers on the Brent 1080, 880 and 780 grain carts also set the standards for unloading height, and forward and outward reach. Now it's easy to finish off the top of each load, even over the tallest truck and wagon sides.

Harvest efficiency is pushed to the max with 1,000-plus, 840 and 750 bushel capacities, unloading speeds up to 500 bushels per minute and two, high-intensity halogen lights on the auger plus one inside the cart.

Stop by your nearest Brent products dealer today for a first-hand look at all the industry-leading features of the 80 series grain carts. They'll smooth your harvest from start to finish!
