

Follow Farm Progress Show routes

WHEN the Farm Progress Show gates swing open on Aug. 26, vehicles will come streaming in from all directions. Show organizers, along with local, county and state officials, have met regularly for more than a year to design the safest and most efficient traffic routes to the show. Follow these directions; they will get you in and out with few headaches.

Information for overnight parking

RV and camper parking is available at this year's Farm Progress Show south of the show grounds in an alfalfa parking lot.

There is no fee to park and no facilities are provided. The grounds are open for camper and RV parking at noon on Aug. 25. To access the overnight parking lot on Aug. 25, follow the signage for bus parking as the lot will be shared on show days with buses.

On show days, you can follow the regular visitor routing, and parking staff will move you to the correct lot after show hours for overnight parking.

Visitor Route
