

Earn rewards for growing 'better beans'

By TOM J. BECHMAN

GROW soybeans higher in protein and oil and get paid for it. Here's how the program works: Simply grow and deliver soybeans to Consolidated Grain & Barge at Mt. Vernon, or Bunge, Mt. Vernon, Ill. Each load will be tested for oil and protein content. Minimums are 19.2% for oil and 35.5% for protein.

Premiums scale up to 6 cents per

Hoosier Gleanings

bushel. There's no penalty if the load doesn't qualify.

To participate at Bunge, sign up acreage through your Bunge grain merchandiser. CGB requires no sign-up.

"This is the type of marketing effort we need to adapt if we're going to com-

pete effectively with soybeans in South America," says Mark Seib, president of the Indiana Soybean Board.

The program is sponsored by ISB, CGB, Bunge and the Indiana Soybean Growers Association.

Farmer-inventor draws praise

Duane Gress can open and close the cover while hooking up to a gooseneck trailer without climbing into the pickup bed. The Velpen farmer (Pike County)

developed the E-Z Open Gooseneck Hitch Cover. He was one of 15 farmers nationwide who participated in American Farm Bureau's idea exchange.

Indiana loses great educator

Don Paarlberg passed away recently. The former Purdue University ag economist left his mark as teacher, ag economist and public servant. Paarlberg served three U.S. presidents and advised four secretaries of agriculture.

Order any new 9020 Series Tractor and get the AutoTrac Ready bundle FREE!

These days you need large equipment to farm large acreages efficiently and profitably. John Deere helps you power up and pull ahead with 9020 Series 4-wheel-drives from 280 to 500 engine horsepower.

And now all 9020 Series Tractors come from the factory GreenStar™ AutoTrac Ready – an added value that's worth up to \$3,948!*

With rising energy costs, adding AutoTrac Assisted Steering can pay for itself fast. AutoTrac uses GPS signals to reduce implement overlap to a matter of inches and lets you boost operating speeds. You'll finish more acres per day with less fatigue, and drive down input costs like fuel, seed, fertilizer, and chemicals.

Boost productivity on your 9020 Series even further with the available 18-speed Automatic PowerShift Transmission and high-capacity hydraulics. Plus, the available John Deere ActiveSeat™ gives you the smoothest tractor ride around.

The 9020 Series is part of our commitment to build easy-to-operate tractors that deliver rock-solid dependability, unmatched uptime, and superior productivity. See your local dealer today for more information.

*Figures shown are in U.S. dollars. AutoTrac Ready applies to 2006 model year only.

NEW John Deere GreenStar 2 display is an ideal addition to any 9020 Series Tractor.

Use it as a tractor performance monitor, or to control John Deere guidance or documentation software. It's innovative technology that boosts productivity and drives down input costs.

SHIFT TO SOMETHING STRONGER.

JOHN DEERE 95- TO 125-HP 7020 SERIES TRACTORS DELIVER MORE POWER TO THE GROUND, thanks to the revolutionary, yet easy-to-use John Deere Infinitely Variable Transmission™ (IVT).

IVT communicates directly with the PowerTech™ engine – up to 500 times per second – for instant response to changing loads and conditions. The engine uses four valves per cylinder for deeper breathing and greater torque. High-pressure common rail fuel delivery results in better fuel efficiency, regardless of engine speed. And you can customize the system's performance to the task at hand with just the turn of a knob. The end result? More productivity and greater ease-of-use.

Learn more about the 7020 Series Tractors. Stop by your dealer's store or visit www.JohnDeereAg.com for more information.

JOHN DEERE INFINITELY VARIABLE TRANSMISSION™ (IVT)

IVT and the PowerTech engine work together to give you more power in all applications.
