

**DON'T CHANGE  
THE WAY YOU FARM.**

**USE THE  
ROUNDUP READY  
RATE TO  
SAVE  $\frac{1}{3}$   
ON  
HARNESSTM XTRA.**

**START CLEAN AND SAVE.**

When you use the Roundup Ready® Corn 2 System, you only need the Roundup Ready Rate of Harness® Xtra for your early-season weed control. That's enough Harness Xtra to widen your post application window without sacrificing efficacy on your toughest early-season weeds. So this season, don't change the way you farm. Just make the switch to Roundup Ready Corn 2 and save up to \$7/A on your residuals. There's no better way to control your weeds ... and your costs.

Always read and follow pesticide label directions. Harness® Xtra is a restricted-use pesticide and is not registered in all states and counties. Check with your local Monsanto dealer or representative prior to use concerning registration status in your area. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® agricultural herbicides. Roundup® agricultural herbicides will kill crops that are not glyphosate tolerant.
