You'll have to go back. But not in your fields.

Some things you don't want to go back for. Spraying your field a second time is one of them. Well, make Lexar® your first spray and you won't have to go back. That's because Lexar is the hardest-working, one-pass herbicide available. Whether it's conventional, Roundup Ready® or Agrisure™ GT corn, Lexar offers an unmatched crop safety profile, application flexibility and delivers higher yield potential. It even controls weeds resistant to glyphosate—so it's a true Resistance Fighter™ brand. Ask your dealer how Lexar can make weeds and resistance non-factors in your field.
