CUT HIGH FUEL COSTS!

AgriDry Bullseye

Don't over dry your grain.
To dry 2 or 3 points in the bin. Operate fans when the relative humidity is between the grain moisture and market moisture. Add low temperature to control the relative humidity. Level grain & spread fines...

Sounds Simple?
It is when you use the AgriDry Grain Spreader and Bullseye Controller.

Early Order discounts in effects now.

- Ride 'n Drive demonstration areas
- Marketing Seminars • Cattle handling demonstrations
- Horse events • Country Crafts • And more!

The POLARIS RANGER is the OFFICIAL FARM PROGRESS OFF-ROAD VEHICLE

Take Control - Get THE RUB®

Get Control for the whole fly season

"For the last 3 years, we kept The Rubs treated for the entire fly season using the same 10% permethrin. Control was ideal and there was absolutely NO problem with resistant flies, because we kept The Rubs charged until fly season was completely over."
Dr. Pierce White, DVM

FACE FLYS wick solution from The Rub on to the face, giving effective pinkeye protection and face fly control. Each pack contains 22 Flies for one Rub.

FLY BULLETS are also made of tough polyester and acrylic and in Virginia tests, they too were treated only once a month.

Proven on millions and millions of cattle. Simply hang the 10 ft. Rub and apply along its length about 2 gal. of insecticide solution. The Rub does the rest. Many users report treating it less than once a month. Each Rub has a mixing chart attached. The 10 ft. Rub about \$29, Face Flies \$16, Fly Bullets \$6.50.

Cow Life-Cattle Rub®

"The Rubs work great for us. We find them very easy to use and the most effective and economical way to control horn flies".
Wilson & Janella Garrett
Greenhill Farm, Grand Saline, Texas
Their Blonde d' Aquitaine herd has 400 cows.

"We have had **NO CASES** of **PINKEYE** since I put in the mineral feeder with those backrubbers." Tom Edwards, Union County, TN, featured in a Progressive Farmer article.

It's the smart thing to do!

"It's the most effective and economical fly control that we have used."
Wiese & Sons - Manning, Iowa
They've been in business for over 90 years and run several hundred head.
