**CROP SAFETY
FIRST**

**THE ROUNDUP READY® CORN 2 SYSTEM
CONTRIBUTES TO OVERALL PLANT
HEALTH AND HIGHER YIELD POTENTIAL.**

Protect your corn from yield-lowering crop injury with the proven crop safety of the Roundup Ready Corn 2 System. In five years of side-by-side trials, the Roundup Ready Corn 2 System has consistently outyielded conventional herbicide programs. That can add bushels to your yield and an average of \$13/A more to your bottom line.

* Source: 373 field-trial comparisons, same Roundup Ready Corn 2 hybrid. Grower on-farm, university and Monsanto trials, 2001-2005.

Always read and follow pesticide label directions. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® agricultural herbicides. Roundup® agricultural herbicides will kill crops that are not glyphosate tolerant.
