

A man with glasses and a goatee, wearing a white button-down shirt with the Asgrow logo, stands in a greenhouse with rows of green bean plants. The background shows the structural framework of the greenhouse.

My name is Rodney Scherm,  
and I breed better beans for Asgrow.

**Plant Asgrow  
for consistently  
higher yields  
at harvest.**

My team takes  
**extra steps for genetic purity.**

We are entirely dedicated to genetically purifying soybean varieties, working to see the Asgrow® seed you buy has uniform genetics. So the plants you grow are uniform in health and performance.

Perfection here means higher yield potential in your fields.

Asgrow. We breed better beans.
